SUMMARY

Odoo Developer and Backend Engineer with 3.5+ years of hands-on experience customizing and deploying Odoo ERP solutions across versions 11-19 for enterprise clients. Skilled in Python, Odoo ORM, PostgreSQL, and OWL.js, with a proven record of delivering client-specific customizations, leading multi-version migrations, and integrating AI-driven automation into ERP workflows. Strong in backend architecture, REST/XML-RPC integrations, and end-to-end module development for real-world business solutions.

PROFESSIONAL EXPERIENCE

Odoo Developer | ComstarUSA, Karachi Jan 2023 – Present

- Developed and customized Odoo ERP modules across versions 11-19 — spanning Sales, Inventory, Manufacturing (MRP), Accounting, CRM, and Field Service — for enterprise clients including Stonetech Fabrication, Cosa Marble, and ClearWater.
- Engineered backend logic with Python and the Odoo ORM, building custom XML views, QWeb reports, and OWL.js front-end components tailored to client business requirements.
- Integrated AI-driven features and intelligent automation into ERP workflows, and built REST API / XML-RPC connections to synchronize Odoo with third-party systems, reducing manual data entry.
- Led version-migration projects across multiple Odoo releases, ensuring compatibility and minimizing upgrade downtime; managed code versioning and deployments using Git and Docker.

Odoo Developer | Odolution, Karachi Jun 2022 – Dec 2022

- Delivered custom Odoo ERP solutions for SadaPay (fintech), FAKT, and Universal Brush wares, tailoring modules to industry-specific business needs.
- Built backend functionality with Python and Odoo ORM — custom XML views, business workflows, QWeb reports, and PostgreSQL data models ensuring data integrity and performance.

Python Developer Intern | Love For Data, Karachi Feb 2022 – Jun 2022

- Wrote, tested, and maintained backend applications in Python; designed and tested RESTful APIs with Postman and managed SQL/PostgreSQL databases for application backends.

TECHNICAL PROJECTS

Library Management System — Odoo | Full Custom Module

Built a complete library management solution through Odoo customization, including custom models, automated workflows, and QWeb reporting for issue/return tracking.

ML Agriculture Health Monitoring System | Final Year Project

Developed an end-to-end machine-learning system integrated with an IoT sensor network to monitor crop and soil health in real time, enabling data-driven agricultural decisions.

Leave Management System | Python / Django

Designed and built both front-end and back-end of an employee leave-management platform with role-based requests and approval workflows.

University Management Portal | Web Application

Built a responsive university web portal using HTML, CSS, and JavaScript for student and academic information management.

TECHNICAL SKILLS

ERP & Core: Odoo (v11-v19), Python (Advanced), Odoo ORM, OWL.js, JavaScript, SAP (ABAP)

Backend & Databases: PostgreSQL, SQL, Flask, REST API, XML-RPC, QWeb

AI & Automation: AI-Driven ERP Features, Intelligent Process Automation, AI/Data Science Fundamentals

Tools & DevOps: Git, Docker, Postman, Web Scraping, Power BI

EDUCATION

Bachelor of Science in Information Technology (BS-IT) — Benazir Bhutto Shaheed University, Karachi | 2018–2021 | CGPA: 3.22

FSc (Pre-Eng), B.I.S.E Mirpurkhas — Grade A (2017) • SSC, B.I.S.E Mirpurkhas — Grade A-1 (2014)
